ABSTRACT

As an aid for the descriptive cataloging of monographs, this pamphlet provides guidelines for using Chapter 6 of the Anglo-American Cataloging Rules (AACR), which covers this facet of cataloging practice. A table of contents to Chapter 6 is provided, followed by an alphabetical index of the terms and processes involved in descriptive cataloging with reference to the appropriate AACR rule. (SL)

PREFACE

This index is dedicated to struggling catalogers everywhere. It was undertaken to meet the needs of students and practicing catalogers who are accustomed to the old rules for the descriptive cataloging of monographs, and for whom the realities of the International Standard Bibliographic Description and the computer present a departure from former experience.

The compilation of the index was encouraged and edited by Mr. William Pease, Head Catalog Librarian, San Diego State University. The table of contents was compiled by Ms. Sharon Butler, Library Assistant. Typing and layout were performed by Ms. Susan Rhee, Serials cataloger at the University of California, San Diego, library.
